BUILDING A HEALTHY NATION THROUGH RESEARCH

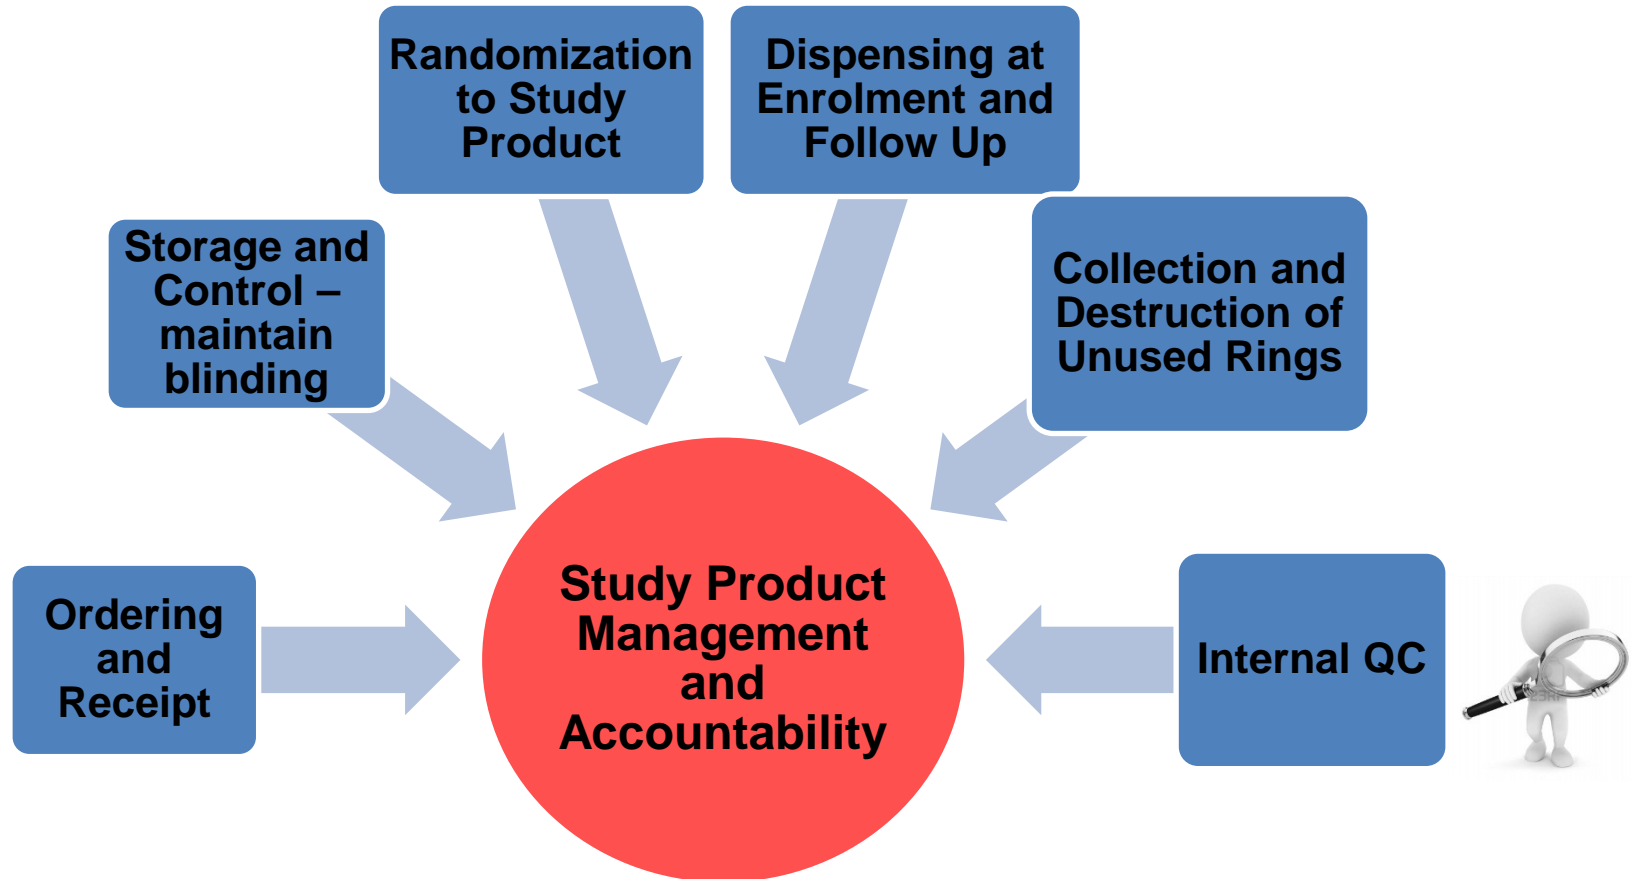

CTU Pharmacy Department

Building a healthy nation through research

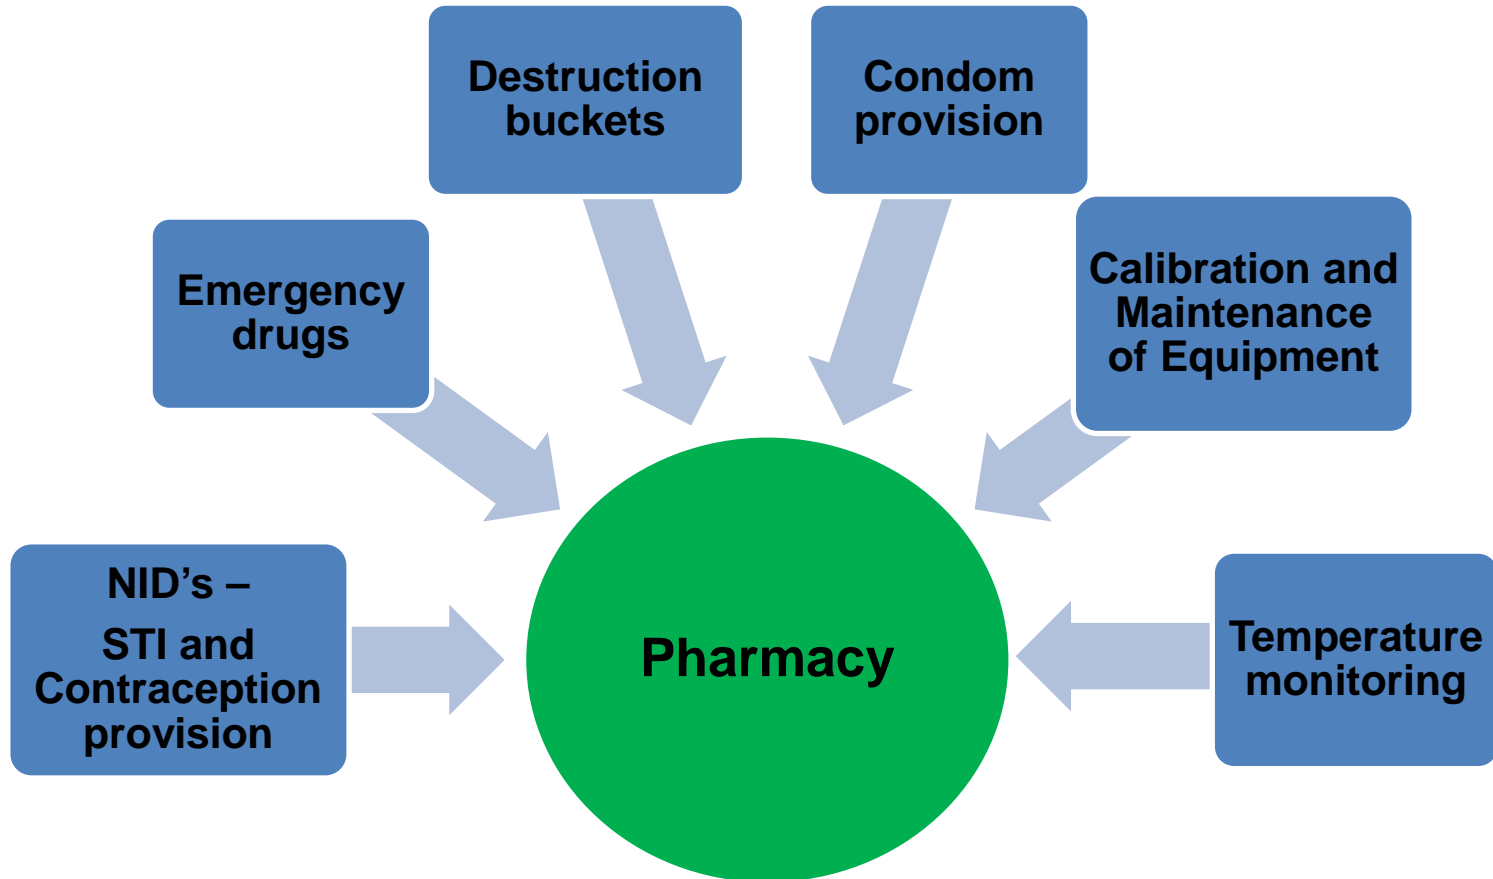

Pharmacist's Primary Role

Building a healthy nation through research

Pharmacist's Role in Aspire

Building a healthy nation through research

1. **QC of Clinic Study product accountability processes**
 - **QC of Ring Accountability Records**
 - **QC of Ring Accountability Cover page**
 - **QC of Ring Collection/Insertion (RCI-1)CRF**
2. **QC of Ppt Registration Log (to prevent Co-enrolment)**
3. **QC of Screening Files**
4. **Review of IC's**

(3 and 4 above ,done daily or weekly depending on clinic requirements. Documented on a Pharmacy QC log. Training on clinic file review will be provided by site management)

Concluding Remarks

Building a healthy nation through research

- **Pharmacists as part of the research team, play an important role in Aspire**
- **Requires attention to detail and effective QA/QC to ensure high quality of work**
- **Utilise expertise and skills to assist Clinic to achieve overall quality data**
- **Experience and learnings from VOICE**
- **Clear communication and standardisation across sites – achieve our goals**

Thank you !
