

PHARMACIST'S ROLE IN ASPIRE

Linda Meki-Chibangu
Pharmacist- Zambia

Overview

- Good commodity Management
- Dispensing of study drug
- QC of Clinic Accountability Log
- Training Clinical Staff
- Dispensing of non study drug

Good Commodity Management

- **Ordering**
- **Receiving**
- **Storage**
- **Accountability**

Dispensation of Study Product

- Receive prescription/request slip from RN , validate it ,follow SOP for Dispensing
- Prior to leaving, the pharmacy staff will ensure RN has the information required for counseling the ppt about the study pdt, this will be in form of a leaflet.

Conti.....

- In addition to counseling messages, RN must counsel the ppt about the study pdt emphasizing on the following and ensuring that the ppt understands:
 - a) Random study pdt assignment
 - b) Adherence to the study pdt
 - c) Expected side effects and what to do should these occur
 - d) Storage of the ring if they are supplied with more than one
 - e) The use of the white return bag
 - f) Contacting the study staff for any questions

Conti....

- If unsure, the pharmacy staff may leave the pmcy, to discuss with the ppt
- Alternatively the ppt may enter the pharmacy counseling room to speak with the pharmacy staff.

QC Accountability Log

- Weekly QC of Clinic Accountability log

Training Clinical Staff

- Conduct training and oversight of clinical staff that receive and deliver the ppt-specific study pdt from the Pharmacy to the ppt in accordance with SOP.

Dispensation of non-Study Product

- RN escorts the Ppt to the Pharmacy
- Presentation of Prescriptions to the Dispensing Pharmacy
- Pharmacy Staff to Check the Prescription
- Preparing the Medication
- Preparation of the Medication Label
- Dispensing the Medication and Counseling
- Pharmacy Staff will escort the Ppt

THANK YOU
